

Trade – View and Export Tariff-line Imports

<p>The “Trade – View and Export Tariff-line Imports” tool lets you query available databases and retrieve tariff-line imports of all traded products.</p>
<p>This tool is useful for determining the quantity and trade value of a product as it was reported by the importing country.</p>
<p>In this example, we will identify the quantity and trade value of pencil sharpeners imported by the United States in 2002, as well as its trading partners.</p>
<p>Select the Data Source, Reporter, Year, and Partner.</p>
<p>Select the attributes you want to include in your report, then click “Proceed” when you are finished.</p>
<p>In the Result View window, you can see the list of products imported by the United States in 2002.</p>
<p>You can either use the Product Code filter or the Product Description filter to narrow down your search.</p>
<p>We now have the reported total Quantity and Trade Value of pencil sharpeners imported by the US in 2002 as well as the amount and quantity it imported from its individual trading partners.</p>
<p>To download your report, click on the “Download” button.</p>
<p>Enter the Job Name, Job Description, and select the file format.</p>
<p>Click on the Save icon to download your report to your personal drive.</p>
