

THE CARTAGENA AGREEMENT

CODIFICATION OF THE ANDEAN SUBREGIONAL INTEGRATION AGREEMENT (CARTAGENA AGREEMENT)

Presentation

The Protocol of Trujillo was signed by the Andean Presidents during the Eighth Presidential Council that was held in the city of Trujillo, Peru, in March of 1996. It replaces Chapter II of the Cartagena Agreement and requests that the Commission adopt a codified text through a Decision.

It is in compliance with this Presidential Mandate that the Commission of the Andean Community, in its Eighty-seventh Special Term held in the city of Quito, Ecuador, on June 25, 1997, approved Decision 406: "Codification of the Andean Subregional Integration Agreement (Cartagena Agreement)".

This codified text includes the original Cartagena Agreement and its respective modifying instruments: the Additional Instrument for the accession of Venezuela (1973); the Protocol of Lima (1976); the Protocol of Arequipa (1978); the Protocol of Quito (1987), and the Protocol of Trujillo.

The Protocol of Trujillo, moreover, creates the Andean Community and establishes the Andean Integration System, with a series of bodies and institutions which have required that, in this text, the references "Commission of the Cartagena Agreement", "Board of the Cartagena Agreement", "Court of Justice of the Cartagena Agreement", and "Cartagena Agreement Law" be substituted for "Commission of the Andean Community", "General Secretariat of the Andean Community", "Court of Justice of the Andean Community", and "Andean Community Law", respectively.

In addition, the Protocol of Trujillo authorizes the necessary adjustments to the numbering of the articles, for which reason the numbering of the articles of the previous Codified Text (Decision 236) does not necessarily coincide with the present numbering (Decision 406).

This last point is particularly important to those who need to constantly refer to articles of the Agreement. For this reason, the final pages of this document include a Matching table * between the Official Codified Text of the Cartagena Agreement after the Protocol of Quito (Decision 236), and that resulting from the Protocol of Trujillo (Decision 406).

THE GOVERNMENTS of Bolivia, Colombia, Ecuador, Peru, and Venezuela,

INSPIRED by the Declaration of Bogota and by the Declaration of the Presidents of America;

- g. Harmonization of policies on aspects directly affecting the Program;
- h. Complementary measures that may create greater industrial linkages and facilitate the fulfillment of the goals of the Program; and
- i. The periods of time during which the rights and obligations arising from the Program shall be maintained, in case the Agreement is denounced.

Article 60

In the Industrial Integration Programs, the nonparticipant country shall be subject to the following conditions:

- a. When the products that are the subject matter of these programs belong to the list of reserved products, it may keep them as in a reserved position, with the commitment of improving the Tariff Reduction Program or the Common Minimum External Tariff, as the case may be, within a period which does not exceed that established in the Programs for these purposes; and
- b. For the other products, by the general rules of this Agreement.

Article 61

A country not participating in a Program of Industrial Integration may request its incorporation at any time in which case the Commission shall approve the conditions for said incorporation, through the voting system provided in paragraph b) of Article 26. In the respective proposals, the Commission shall take into account the negotiations carried out between participating and the nonparticipating countries.

Section B**On the Agreements of Industrial Complementarity***Article 62*

The Agreements of Industrial Complementarity shall promote industrial specialization among the Member Countries and may be entered into and carried out by two or more of them. Such Agreements must be notified to the Commission.

With respect to the preceding paragraph, the Agreements may include measures such as distribution of production, joint production, subcontracting of productive capacity, market agreements, and joint foreign trade operations, as well as others which may facilitate a greater articulation of the productive processes and entrepreneurial activity.

The Agreements of Industrial Complementarity shall be transitory in nature, and in addition to the determination of products that are their subject matter and of the expiration date of the rights and obligations of the participant Member Countries, may include special measures regarding tariff treatment, trade regulations, and the establishment of preferential margins, that are not applicable to nonparticipant countries, provided that such measures represent an equal or better level of conditions than those existing for reciprocal exchange. In this case, the duties applicable to third countries shall be determined.

Article 63

In the case of Agreements of Industrial Complementarity, the following rules shall apply to the products subject to them:

- a. Whenever they belong to the list of reserved products, the participant and nonparticipant countries may maintain them in it; and
- b. Regarding the other products, the nonparticipant countries shall apply the general rules of this Agreement.

Article 64

Countries not participating in the Agreements of Complementarity may request their incorporation at any time, in which case the conditions for said incorporation shall be approved by the participant countries. These conditions shall be notified to the Commission.

Section C

On Industrial Integration Projects

Article 65

The Commission shall, at the General Secretariat's proposal, approve Industrial Integration Projects, which shall be carried out with regard to specified products or product families, preferably new ones, through collective cooperation policies and with the participation of all of the Member Countries

In carrying out these Projects, the following tasks, among others, shall be performed:

- a. Feasibility and design studies;
- b. Supplying equipment, technical assistance, technology, and other goods and services, preferably of subregional origin;
- c. Support by the Andean Development Corporation through financing or through equity; and
- d. Joint negotiations with international entrepreneurs and government agencies to obtain foreign funds or the transfer of technology.

Industrial Integration Projects shall include clauses regarding the location of production facilities in the Member Countries whenever the characteristics of the corresponding sector or sectors so require and may include clauses that facilitate product access to the subregional market.

In the case of specific projects located in Bolivia or Ecuador, the Commission shall establish temporary and exclusive tariff treatment that improves the conditions of access of such products to the subregional market. Regarding products that are not produced in the Subregion, if these were to be included in this category, they shall include exceptions to the principle of irrevocability provided in the first paragraph of Article 75.

Other Provisions

Article 66

In the application of the modes of industrial integration, the Commission and General Secretariat shall consider the situation and requirements of small and medium-sized industry, particularly those referred to the following aspects:

- a. The installed capacity of the existing companies;
- b. The financial and technical needs for the installation, expansion, modernization, or conversion of production facilities;
- c. The perspectives for establishing joint marketing, technological and research systems, and other forms of cooperation among similar companies; and

- d. Employee training requirements.

Article 67

The modes of industrial integration may foresee industrial rationalization actions with the intention of achieving an optimum utilization of the factors of production and to reach higher levels of productivity and efficiency.

Article 68

The General Secretariat may carry out or promote cooperation actions, including those for industrial rationalization and modernization, in favor of any activity of the sector and, particularly, of Subregional small and medium-sized industry, with the purpose of contributing to the industrial development of the Member Countries. These actions shall be carried out with priority in Bolivia and Ecuador.

Article 69

When the General Secretariat deems it advisable and, in any case, in its periodic evaluations, it shall propose to the Commission the measures it considers essential for ensuring the equitable participation of the Member Countries in the modes of industrial integration that are covered under the present Chapter, in their execution, and in the attainment of their objectives.

Article 70

It shall be the Commission and the General Secretariat's responsibility to maintain an adequate coordination with the Andean Development Corporation, and to arrange for the assistance of any other national or international institutions whose technical and financial contribution it considers desirable for:

- a. Facilitating the coordination of policies and the joint programming of investments;
- b. Channeling an increasing volume of funds to the solution of problems created for Member Countries by the process of industrial integration;
- c. Promoting the financing of the investment projects that arise from the execution of the different modes of industrial integration,
- d. Expanding, modernizing, or converting industrial plants that may be adversely affected by trade liberalization.

CHAPTER V: TARIFF REDUCTION PROGRAM

Article 71

The objective of the Tariff Reduction Program is to eliminate the levies and restrictions of all kinds that affect the importation of products originating in the territory of any Member Country.

Article 72

"**Levies**" are understood to mean the customs duties and any other charge with equivalent effect, whether fiscal or monetary in nature or related to foreign exchange, that may affect imports. Not included in this concept are analogous assessments and surcharges that correspond to the approximate cost of the services rendered.

"**Restrictions of all kinds**" are understood to mean any administrative, financial, or foreign exchange measure, whereby a Member Country through an unilateral decision, obstructs or hinders imports. Not included in this concept are the adoption and enforcement of measures for:

- a. The protection of public morality;
- b. The application of laws and regulations related to security;
- c. The regulation of arms, ammunition, and other implements of war, and under exceptional circumstances, of all other military articles, as long as it does not interfere with what is provided in treaties in force between Member Countries relating to the freedom of transit;
- d. The protection of human, animal, or plant life and health;
- e. Import and export of metallic gold and silver;
- f. The protection of national treasures of artistic, historic, or archaeological value; and
- g. The exportation, use, or consumption of nuclear materials, radioactive products, or any other material that may be used in the development and use of nuclear energy.

Article 73

For the purpose of the previous articles, the General Secretariat, on its own initiative or at the request of a party, shall determine, when necessary, if a measure adopted unilaterally by a Member Country constitutes a "levy" or "restriction."

Article 74

As regards taxes, assessments, and other internal charges, products originating in a Member Country shall enjoy in the territory of the other Member Country treatment that is no less favorable than that accorded to similar domestic products.

Article 75

The Tariff Reduction Program shall be automatic and irrevocable and it shall cover the entire product universe, except for the provisions regarding exceptions that are established in this Agreement, so that a total reduction is achieved by the dates and in the modes referred to in this Agreement.

This Program shall apply, in its various forms to:

- a. Products that are the subject matter of Industrial Integration Programs;

- b. Products included in the Common List referred to in Article 4 of the Treaty of Montevideo of 1960;
- c. Products that are not produced in any of the Subregional countries, included in the corresponding list; and
- d. Products not included in the above sections.

Article 76

Every kind of restriction shall be eliminated by December 31, 1970, at the latest. Excepted from the previous rule are restrictions applied to products reserved for Sectorial Programs and modes of industrial integration, which shall be eliminated when the reduction in their tariffs is initiated according to their respective program or mode or as provided in Article 83.

Bolivia and Ecuador shall eliminate every kind of restriction at the moment in which they initiate the Tariff Reduction Program for each product, according to the procedures provided in Articles 130 and 138, but may replace them with levies that do not exceed the lowest level indicated in subsection a) of Article 82, in which case this shall apply to imports from the Subregion as well as from outside of it.

Article 77

The Commission shall, within the time period provided in the preceding Article and at the General Secretariat's proposal, determine which products are to be reserved for Sectorial Programs of Industrial Development.

Before October 31, 1978, the Commission, at the General Secretariat's proposal, shall approve a list of products to be excluded from the list of those reserved for programming and shall reserve from among those not produced two lists of goods to be produced in Bolivia and Ecuador, indicating the conditions and time periods.

On December 31, 1978, Colombia, Peru, and Venezuela, shall adopt for the products on this list the starting point provided in subsection a) of Article 82, and shall eliminate all of their restrictions applicable to the importation of said goods.

The remaining levies shall be removed in five annual and successive reductions of ten, fifteen, twenty, twenty-five, and thirty percent, the first of which shall take place on December 31, 1979.

On December 31, 1978, Colombia, Peru, and Venezuela shall eliminate the levies applicable to imports originating in Bolivia and Ecuador.

Bolivia and Ecuador shall eliminate duties on the importation of these products as foreseen in section b) of Article 130 of this Agreement.

Before December 31, 1995, the Commission shall approve Industrial Integration Programs and Projects with respect to products that had been reserved for that purpose.

Article 78

The Commission and the Member Countries shall, whenever appropriate and at any time, adopt the modes of industrial integration referred to in Article 58 and shall determine the pertinent rules, taking into account that which is provided in Chapter IV and considering the importance of industrial programming as a fundamental mechanism of the Agreement.

Article 79

The products included in the first section of the Common List referred to in Article 4 of the Treaty of Montevideo of 1960, shall be totally freed from all restrictions and levies on April 14, 1970.

Article 80

Before December 31, 1970 the Commission, at the proposal of the General Secretariat, shall draw up a list of the goods not produced in any of the countries of the Subregion and which have not been reserved for Sectorial Programs of Industrial Development. It shall select those that should be reserved for production in Bolivia and Ecuador, establishing, for the latter, the terms and reserve periods.

Products appearing on that list shall be totally freed of levies on February 28, 1971. The elimination of duties on the goods reserved for production in Bolivia and Ecuador, shall benefit those countries exclusively.

Notwithstanding the foregoing, and within the period stipulated in the first paragraph of this Article, the General Secretariat may propose to the Commission that some of the products on that list be allocated to Colombia, Peru, and Venezuela. The country benefiting from the allocation shall remove the duties on the respective goods as provided for in Article 82.

If the General Secretariat is able to confirm that, four years after the date of the allocation, the favored country has not initiated the corresponding production or that the project is not underway, then as of that moment the effects of that allocation shall cease and the country benefited shall immediately proceed to eliminate the tariff on the product in question.

Article 81

At any time after the expiration of the period indicated in the second paragraph of the foregoing Article the Commission, at the General Secretariat's proposal, may add new products to the list referred to in the first paragraph of that same Article. Those goods shall be free from all levies sixty days after the date of approval of their inclusion on the list in question.

Whenever the General Secretariat considers it to be technically and economically feasible, it shall propose to the Commission that some of the new products be reserved for production in Bolivia and Ecuador; in that case it shall stipulate the period and term of the reservation.

Article 82

Products not covered by Articles 77, 79, and 80 shall be freed of levies in the following manner:

- a. The lowest levy for each product in any of the national schedules of customs duties of Colombia and Peru or in their respective National Lists on the date the Agreement is signed, shall be used as the starting point. Said starting point may not be higher than one hundred percent ad valorem of the CIF price of the merchandise;
- b. On December 31, 1970, all of the duties above the level cited in the preceding subsection shall be reduced to that level; and
- c. The remaining levies shall be eliminated in five annual and successive reductions of ten percent each, the first of which shall be made on December 31, 1971; seven annual and successive reductions of six percent each, the first of which shall be made on December 31, 1976, and a final reduction of eight percent, to be made on December 31, 1983.

Article 83

With respect to the products which, having been selected for Sectorial Programs and modes of Industrial Integration and which are maintained in reserve until the expiration of the period specified in the final subsection of Article 77, the Member Countries shall carry out the Tariff Reduction Program in the following way:

- a. The Commission, at the General Secretariat's proposal, shall choose two lists of not produced goods, to be produced in Bolivia and Ecuador, and shall set the periods and terms of the reservation; and
- b. Before December 31, 1995, the Commission, at the General Secretariat's proposal shall adopt a gradual tariff reduction program for the remaining products, which shall be completed by December 31, 1997. Colombia, Peru, and Venezuela shall eliminate the levies applicable to imports from Bolivia and Ecuador at the time said tariff reduction program is initiated.

Article 84

The Member Countries shall refrain from changing the levels of the levies and from introducing any new restrictions on the importation of products which originate in the Subregion, in any way that would create a less favorable situation than that in existence at the time the Agreement comes into effect.

Excluded from the above are the changes which Bolivia and Ecuador must make in their schedules of customs duties to obtain optimum use from their trade policy instruments in order to ensure that certain production activities are initiated or expanded within their territories. These exceptions are to be reviewed by the General Secretariat and authorized by the Commission.

Also excepted from this rule are changes in levies resulting from the replacement of restrictions by levies referred to in Article 46.

Article 85

Up until December 31, 1970, each of the Member Countries may submit to the General Secretariat a list of products currently being produced in the Subregion, in order to exempt them from the Tariff Reduction Program and from the establishment of the External Tariff. Colombia

and Peru's lists of exceptions cannot contain products that are included in more than two hundred and fifty items of the NABALALC.

Within one hundred and twenty days after its Instrument of Accession to the Agreement, Venezuela will present to the General Secretariat a list of exceptions which may not cover products that are already included in more than two hundred and fifty items of the NABALALC.

The products included in the lists of exceptions shall be completely free of levies and other restrictions and covered under the Minimum Common External Tariff or the Common External Tariff, whichever is appropriate, through a process that shall include three stages of 44, 44 and 87 items, the first of which shall be liberalized on December 31, 1993; the second on December 31, 1994, and the final one on December 31, 1995.

Colombia, Peru, and Venezuela may maintain, after December 31, 1995, a set of residual exceptions that shall contain products that are included in no more than 75 items of the NABALALC.

Article 86

A Member Country's incorporation of a product in its list of exceptions shall prevent it from enjoying the benefits deriving from the Agreement for that product.

A Member Country may withdraw products from its list of exceptions at any time. In that case, the products shall comply with the Tariff Reduction Program and the External Tariff in effect for such products, in the ways and levels that are appropriate, and they shall simultaneously begin to enjoy the respective benefits.

In duly qualified cases, the General Secretariat may authorize a Member Country to incorporate in its list of exceptions products that, having been reserved for Industrial Integration Programs and Projects, were not programmed.

In no case shall the incorporation involve an increase in the number of corresponding items.

Article 87

The General Secretariat shall consider the possibility of incorporating the products Member Countries included in their lists of exceptions and in their lists of administered trade, to the Industrial Integration modes.

For purposes of the previous section, interested countries shall inform the General Secretariat of their intention to participate and once the respective mode of industrial integration is agreed upon, shall withdraw the product from its list of exceptions or from its list of administered trade.

Member Countries shall enter into negotiations in order to seek formulas that may allow for the liberalization of the products included in the lists of exceptions or the elimination of quotas on the products incorporated in the lists of administered trade, prior to the expiration of the corresponding deadlines.

Article 88

The inclusion of products in the lists of exceptions shall not affect the exportation of goods originating in Bolivia or Ecuador which have been the subject of significant trade between the respective country and Bolivia or Ecuador over the last three years or which show a strong likelihood of significant trade in the immediate future.

The same shall be the case in the future for those products from Bolivia or Ecuador which appear in the lists of exceptions of any of the Member Countries and which show clear and immediate prospects of being exported from Bolivia or Ecuador to the country which has exempted them from the reduction of trade restrictions.

It shall be the responsibility of the General Secretariat to determine when significant trade exists or when there is a clear likelihood that it will exist.

Article 89

The Member Countries shall seek to jointly reach partial-scope trade agreements, agreements of economic complementation, agricultural agreements, and trade promotion agreements, with the other Latin American countries in those sectors where it is feasible, according to the provisions of Article 98 of this Agreement and of the Montevideo Treaty of 1980.

CHAPTER VI: COMMON EXTERNAL TARIFF

Article 90

Member Countries commit themselves to implementing a Common External Tariff within the time limits and in the manner established by the Commission.

Article 91

The Commission, at the General Secretariat's proposal, shall approve a Common External Tariff that must provide adequate levels of protection in favor of subregional production, taking into account the Agreement's objective of gradually harmonizing the different economic policies of the Member Countries.

On the date indicated by the Commission, Colombia, Peru, and Venezuela will begin the process of approximating their levies, that apply under their national tariff schedules to the importation of products not originating within the Subregion, to the Common External Tariff, in an annual, automatic, and linear manner.

Article 92

Before December 31, 1970, the Commission, at the proposal of the General Secretariat, shall approve a Minimum Common External Tariff, whose objectives shall be primarily the following:

- a. To establish adequate protection for subregional production;

- b. To progressively create a subregional margin of preference;
- c. To facilitate the adoption of the Common External Tariff; and
- d. To further the efficiency of subregional production.

Article 93

On December 31, 1971, the Member Countries shall begin approximating their levies, that apply to imports from outside the Subregion, to the Minimum Common External Tariff, in those cases in which the former are lower than the latter, and they shall carry out this process in an annual, linear, and automatic manner, so that it is fully implemented by December 31, 1975.

Article 94

Notwithstanding the provisions of Articles 91 and 93 the following rules shall be applied:

- a. With respect to products that are subject matter of the Industrial Integration Programs, the rules established by said Programs regarding the Common External Tariff shall govern; and with respect to products that are the subject-matter of Industrial Integration Projects, the Commission, whenever appropriate, may determine, when approving the respective Decision, the levels of levies that apply to third countries and the corresponding conditions; and
- b. At any time, in fulfilling the Tariff Reduction Program, a product is freed of levies and other restrictions, it shall be subject to the full and simultaneous application of the levies established in the Minimum Common External Tariff or in the Common External Tariff, as the case may be.

For goods not produced in the Subregion, each country may defer the application of the common levies until the General Secretariat verifies that its production has begun in the Subregion. Nevertheless, if in the General Secretariat's judgment the new production is insufficient to normally meet the needs of the Subregion, it shall propose to the Commission the necessary measures to reconcile the need to protect subregional production with that of ensuring a normal supply.

Article 95

The Commission, at the General Secretariat's proposal, shall be able to approve subregional margins of preference with respect to the products that are still not required to comply with the Tariff Reduction Program and the Minimum Common External Tariff, providing in the corresponding Decision the conditions and terms for its application, until they are surpassed by the rules of the Tariff Reduction Program and the Minimum Common External Tariff or the Common External Tariff.

Article 96

The Commission, at the General Secretariat's proposal, may modify the common tariff levels to the extent and at the time it deems advisable in order to:

- a. Adjust them to the Subregion's needs; and

- b. Provide for the special situation of Bolivia and Ecuador.

Article 97

The General Secretariat may propose to the Commission the measures which it considers essential to ensure normal conditions of supply in the Subregion.

Any Member Country undergoing temporary supply shortages may present the problem to the General Secretariat, which shall verify the situation within a period commensurate with the urgency of the case. Once the General Secretariat verifies the existence of the problem in question and so informs the country adversely affected, the latter may take steps, such as to reduce or temporarily suspend the External Tariff duties, within the necessary limits for correcting the disturbance.

In the cases referred to in the previous section, the General Secretariat shall call a special meeting of the Commission, if such is in order, or shall inform it of the action taken at its following regular meeting.

Article 98

The Member Countries commit themselves not to alter unilaterally the levies set in the various stages of the External Tariff. They also commit to hold the necessary consultations in the Commission before taking on obligations of a tariff nature with countries outside the Subregion. The Commission, at the General Secretariat's proposal and through a Decision, shall state its opinion regarding said consultations, and shall set the terms with which commitments of a tariff nature must comply.

CHAPTER VII: AGRICULTURAL DEVELOPMENT PROGRAMS

Article 99

With the purpose of promoting common agricultural and agroindustrial development and attaining greater subregional food security, the Member Countries shall carry out an Agricultural and Agroindustrial Development Program, harmonize their policies, and coordinate their national plans in the sector, bearing in mind, among others, the following objectives:

- a. An improvement in the living standards of the rural population;
- b. Taking care of the food and nutritional requirements of the population on satisfactory terms, to achieve the lowest possible dependence on supplies coming from outside the Subregion;
- c. The appropriate and adequate supply of the subregional market and the protection against food shortage risks;
- d. An increase in the production of staple foods and in productivity levels;
- e. Subregional complementation and specialization of production with a view to improving the use of its inputs and to increase trade of agricultural and agroindustrial products; and

- f. Subregional substitution of imports and the diversification and growth of exports.

Article 100

To fulfill the objectives stated in the previous article, the Commission, at the proposal of the General Secretariat, shall take the following steps, among others:

- a. To create an Andean System and National Systems of Food Security;
- b. Joint policies for agricultural and agroindustrial development by products or groups of products;
- c. Joint programs for agricultural and agroindustrial technological development, including policies for research, training, and the transfer of technology;
- d. Promotion of intra-subregional agricultural and agroindustrial trade and entering into agreements for supplying agricultural products;
- e. Joint programs and policies regarding agricultural and agroindustrial trade with third countries;
- f. Common rules and programs about vegetable and animal health;
- g. Creation of subregional funding mechanisms for the agricultural and agroindustrial sector;
- h. Joint policies for the use and preservation of the natural resources of the sector; and
- i. Joint cooperative policies in the fields of research and transfer of technology in areas of common interest for the Member Countries, such as genetics, floriculture, fishing, forestry, and those that the Commission determines in the future.

Article 101

The Commission and the General Secretariat shall adopt the necessary steps to hasten the agricultural and agroindustrial development of Bolivia and Ecuador as well as their participation in the enlarged market.

Article 102

Any Member Country may apply, in a non-discriminatory, manner, to the trade of products incorporated in the list referred to Article 104, the following measures destined to:

- a. Restrict imports to what is necessary in order to cover internal production deficits; and
- b. To level the prices of the imported product with those of the national product.

For the application of such measures, when appropriate, the Member Countries shall carry out actions through the existing national agencies, destined to the supply of agricultural and agroindustrial food products.

Article 103

The country imposing the measures referred to in the previous article shall immediately notify the General Secretariat, enclosing a report on the underlying reasons for its action.

These measures shall be applied to Bolivia and Ecuador only in duly qualified cases and after the General Secretariat has confirmed that the damage arises essentially from their imports. The General Secretariat is required to express its views within fifteen days after receiving the report, and it may authorize application of the measures.

Any Member Country that considers itself affected by said measures may present its comments to the General Secretariat.

The General Secretariat shall study the case and propose to the Commission the positive measures that it deems advisable in the light of the objectives provided in Article 99.

The Commission shall decide with respect to the restrictions that were applied and the measures proposed by the General Secretariat.

Article 104

Before December 31, 1970, the Commission, at the proposal of the General Secretariat, shall determine the list of agricultural products for purposes of applying Articles 102 and 103. Such list may be modified by the Commission, at the proposal of the General Secretariat.

CHAPTER VIII: COMPETITION

Article 105

Before December 31, 1971, the Commission, shall adopt, at the General Secretariat's proposal, the rules which are needed to guard against or correct practices which may distort competition within the Subregion, such as dumping, improper price manipulations, manoeuvres made to upset the normal supply of raw materials and others with a like effect. In this respect, the Commission shall consider the problems that could derive from the imposition of levies and other restrictions on exports.

It shall be the General Secretariat's responsibility to ensure the application of those rules in the particular cases that are reported.

Article 106

The Member Countries may not adopt corrective measures without the General Secretariat's prior authorization. The Commission shall regulate the procedures for implementing the rules of this Chapter.

CHAPTER IX: SAFEGUARD CLAUSES*Article 107*

A Member Country, that has adopted measures to correct a disequilibrium in its overall balance of payments, may extend such measures, when previously authorized by the General Secretariat in a transitory and nondiscriminatory manner, to intrasubregional trade of products incorporated to the Tariff Reduction Program.

The Member Countries shall seek to ensure that the application of restrictions due to a balance of payments situation does not affect, within the Subregion, trade in products incorporated to the Tariff Reduction Program.

When the situation provided for in this Article requires an immediate response, the interested Member Country may apply, on an emergency basis, the foreseen measures, having in that regard to immediately notify them to the General Secretariat, which shall express its views within the following thirty days, either authorizing, modifying, or suspending them.

If the application of the measures provided for in this Article lasts more than one year, the General Secretariat, on its own initiative or upon the request of any of the Member Countries, shall propose to the Commission that negotiations be immediately initiated in order to seek the elimination of the adopted restrictions.

Article 108

If the execution of the Tariff Reduction Program of the Agreement causes or threatens to cause serious damage to the economy of a Member Country or to one of its significant economic sectors, that country may, with the prior permission of the General Secretariat, apply temporary corrective steps in a nondiscriminatory manner. When necessary, the General Secretariat may propose to the Commission collective cooperation measures for the purpose of surmounting the problems that arise.

The General Secretariat shall periodically study the evolution of the situation to keep the restrictive measures from lasting any longer than is strictly necessary or to consider new formulas for cooperation, if appropriate.

When the injuries dealt with in this Article are so serious that they require immediate steps, the Member Country adversely affected may apply corrective measures temporarily, on an emergency basis, subject to the subsequent pronouncement of the General Secretariat.

Those measures shall do the least damage possible to the Tariff Reduction Program, and so long as they are implemented unilaterally, they may not involve a decrease in the importation of the product or products in question in terms of the average for the twelve preceding months.

The Member Country which adopts those measures shall immediately inform the General Secretariat thereof and the latter shall issue its views on them within the thirty following days, either to authorize, modify, or suspend them.

Article 109

When a product originating in the Subregion is being imported in such quantities or conditions as to cause a disturbance in the domestic production of specific products of a Member Country, it may apply corrective measures, that are nondiscriminatory and of a temporary nature, subject to the subsequent pronouncement of the General Secretariat.

The Member Country that applies the corrective measures, within no more than sixty days, must notify the General Secretariat and present a report regarding the underlying grounds for their application. The General Secretariat, within sixty days after receiving the aforementioned report, shall verify the disturbance and the origin of the imports causing it, and shall issue its pronouncement, either to suspend, modify, or authorize said measures, which may only be applied to the products of the Member Country where the disturbance originated. The corrective measures that are applied shall guarantee access for a volume of trade not inferior to the average for the last three years.

Article 110

If a currency devaluation made by one of the Member Countries alters the normal conditions of competition, the country which considers itself to be adversely affected may bring the case before the General Secretariat, which should hand down its opinion briefly and summarily. Once the General Secretariat has verified, the existence of the disturbance, the adversely affected country may take temporary corrective measures so long as the condition exists, while abiding by the General Secretariat's recommendations.

In any case, those measures may not involve a reduction in the levels of imports existing prior to the devaluation.

Without prejudice for the application of the temporary measures referred to, any of the Member Countries may request that the Commission give a final decision on the matter.

The Member Country which devalued its currency may request at any time that the General Secretariat review the situation, in order to ease or eliminate the cited corrective measures. The General Secretariat's opinion may be amended by the Commission.

In the situation referred to in this Article, the country which considers itself to be adversely affected may, in presenting the case to the General Secretariat, propose protective measures that are commensurate with the magnitude of the alleged disturbance, accompanied by the technical grounds for its proposal. The General Secretariat may request any supplementary information it considers advisable.

The brief and summary pronouncement of the General Secretariat shall be given within a period of one month after the request is received. If the General Secretariat does not hand down its opinion within that period and the requesting country feels that said delay may be harmful to its interests, it may adopt the initial measures which it proposed; it shall immediately inform the General Secretariat thereof and the latter, in its subsequent opinion, shall decide whether the measures taken should be maintained, modified, or eliminated.

In its pronouncement, the General Secretariat shall bear in mind, among other criteria, the economic indicators on the conditions of competition in the Subregion which the Commission may have adopted generally, at the General Secretariat's proposal, the individual characteristics

of the foreign exchange systems of the Member Countries and any studies which the Monetary and Foreign Exchange Council carries out on the matter.

Until the system of economic indicators has been adopted by the Commission, the General Secretariat shall proceed according to its own criteria.

Notwithstanding the foregoing, if, during the period between the presentation in question and the General Secretariat's pronouncement, in the opinion of the applicant Member Country, there are background factors which give reasonable grounds to fear that, as a result of the devaluation, there shall be immediate harmful effects which may have serious implications for its economy and thus call for the adoption of protective measures on an emergency basis, it may bring the situation before the General Secretariat; the latter, if it finds the request to be well grounded may authorize the implementation of suitable measures, for which purpose it shall be given a period of seven continuous days. The General Secretariat's final pronouncement on the alteration of the normal conditions of competition shall, in any case, determine whether the authorized emergency measures shall be maintained, modified, or suspended.

The measures that are adopted in keeping with this Article may not involve a decrease in the levels of trade which existed prior to the devaluation.

The second and third subsections of this Article shall be fully applicable to these measures.

Article 111

No safeguard clauses of any kind shall be applied to the importation of products originating in the Subregion and included in the Programs and Projects of Industrial Integration.

CHAPTER X: ORIGIN

Article 112

The Commission shall, at the General Secretariat's proposal, adopt any special rules necessary for determining the origin of goods. Such rules shall constitute a dynamic instrument for the development of the Subregion and shall appropriately contribute to the attainment the Agreement's objectives.

Article 113

It shall be the General Secretariat's responsibility to establish the specific requirements of origin for the products requiring so. When an Industrial Integration Program calls for setting specific requirements, the General Secretariat shall decide on them as the corresponding program is being approved.

Within the year following the establishment of a specific requirement, the Member Countries may request its review by the General Secretariat, which must give its opinion summarily

If a Member Country so requests it, the Commission shall examine those requirements and make a final decision within six to twelve months after having been set by the General Secretariat.
