2. The term 'agricultural products' means the products listed in Chapter 1 to 24 of the combined nomenclature and the products listed in Annex I, but excluding fishery products as defined by Regulation (EEC) No. 3759/92.

Article 12

Protocol 2 lays down the trade arrangements for processed agricultural products which are listed therein.

Article 13

1. As from the date of entry into force of this Agreement no quantitative restrictions shall apply to imports into the Community of agricultural products originating in Estonia nor to imports into Estonia of agricultural products originating in the Community.
2. The concessions granted under this Agreement are referred to in Annexes III, IV and V.
3. The concessions referred to in paragraph 2 may be subject to revision by agreement between the Parties within three years after entry into force of this Agreement and on the basis of the principles and procedures set out in paragraph 4.
4. Taking account of the volume of trade in agricultural products between them, of their particular sensitivity, of the rules of the common agricultural policy of the Community, of the rules of the agricultural policy in Estonia, of the role of agriculture in Estonia's economy, the Community and Estonia shall examine in the Joint Committee, product by product and on an orderly and reciprocal basis, the possibilities of granting each other further concessions.

Article 14

Notwithstanding other provisions of this Agreement, and in particular Article 23, if, given the particular sensitivity of the agricultural markets, imports of products originating in one Party, which are the subject of concessions granted pursuant to Article 13, cause serious disturbance to the markets in the other Party, both Parties shall enter into consultations immediately to find an appropriate solution. Pending such a solution, the Party concerned may take the measures it deems necessary.

CHAPTER IV

Common Provisions

Article 17

The provisions of this title shall apply to trade in all products except where otherwise provided herein or in Protocols 1 and 2.

Article 18

1. In trade between the Community and Estonia from the date of entry into force of this Agreement:

- no new customs duties on imports or exports or charges having equivalent effect shall be introduced, nor shall those already applied be increased,
- no new quantitative restrictions on imports or exports or measures having equivalent effect shall be introduced nor shall those existing be made more restrictive.

2. Without prejudice to the concessions granted pursuant to Article 13, the provisions of paragraph 1 of this Article shall not restrict in any way the pursuance of the respective agricultural policies of Estonia and the Community or the taking of any measures under such policies.

3. Taking account of the Estonian tariff structure at the time of the entry into force of this Agreement, where no tariff duties are provided for agricultural products, in the event that a new tariff regime for the import of agricultural products is established, Estonia may, by way of derogation from paragraph 1 and pursuant to the implementation of its agricultural policy for its domestic production, introduce duties on a limited number of agricultural products originating in the Community. Such duties may only be introduced during the first two years following the entry into force of this Agreement, and after consultation in the Joint Committee. In all such cases, Estonia shall ensure a sizeable margin of preference for products originating in the Community. If necessary, the period of two years may be prolonged by one year by decision of the Joint Committee.

Article 19

1. The two Parties shall refrain from any measure or practice of an internal fiscal nature establishing, whether directly or indirectly, discrimination between the products of one Party and like products originating in the territory of the other Party.

2. Products exported to the territory of one of the two Parties may not benefit from repayment of internal taxation in excess of the amount of direct or indirect taxation imposed on them.

Article 20

1. This Agreement shall not preclude the maintenance or establishment of customs unions, free trade areas or arrangements for frontier trade except in so far as they alter the trade arrangements provided for in this Agreement.

2. Consultations between the Parties shall take place within the Joint Committee concerning agreements establishing such customs unions or free trade areas and, where requested, on other major issues related to their respective trade policies with third countries. In particular in the event of a third country acceding to the Community, such consultations shall take place so as to ensure that account can be taken of the mutual interests of the Community and Estonia stated in this Agreement.

Article 21

Exceptional measures of limited duration which derogate from the provisions of Article 5 and Article 18 (1), first indent, may be taken by Estonia in the form of increased customs duties.

These measures may only concern infant industries, or certain sectors undergoing restructuring or facing serious difficulties, particularly where these difficulties produce important social problems.

Customs duties on imports applicable in Estonia to products originating in the Community introduced by these measures may not exceed 25% ad valorem and shall maintain an element of preference for products originating in the Community.

The total value of imports of the products which are subject to these measures may not exceed 15% of total imports of industrial products from the Community as defined in Chapter I during the last year for which statistics are available.

These measures shall be applied for a period not exceeding two years unless a longer duration is authorized by the Joint Committee. They shall cease to apply at the latest three years after entry into force of this Agreement.

No such measures can be introduced in respect of a product if more than three years have elapsed since the elimination of all duties and quantitative restrictions or charges or measures having an equivalent effect concerning that product.

Estonia shall inform the Joint Committee of any exceptional measures it intends to take and, at the request of the Community, consultations shall be held in the Joint Committee on such measures and the sectors to which they apply before they are applied. When taking such measures Estonia shall provide the Joint Committee with a schedule for the elimination of the customs duties introduced under this Article. The Joint Committee may decide on a different schedule.

Article 22

If one of the Parties finds that dumping is taking place in trade with the other Party within the meaning of Article VI of the General Agreement on Tariffs and Trade, it may take appropriate measures against this practice in accordance with the Agreement relating to the application of Article VI of the General Agreement on Tariffs and Trade, with related internal legislation and with the conditions and procedures laid down in Article 26.

Article 23

Where any product is being imported in such increased quantities and under such conditions as to cause or threaten to cause:

- serious injury to domestic producers of like or directly competitive products in the territory of one of the Parties, or
- serious disturbances in any sector of the economy or difficulties which could bring about serious deterioration in the economic situation of a region,

the Community or Estonia, whichever is concerned, may take appropriate measures under the conditions and in accordance with the procedures laid down in Article 26.

Article 24

Where compliance with the provisions of Articles 8 and 18 leads to:

- (i) re-export towards a third country against which the exporting Party maintains, for the product concerned, quantitative export restrictions, export duties or measures having equivalent effect; or
- (ii) a serious shortage, or threat thereof, of a product essential to the exporting Party;

and where the situations referred to above give rise, or are likely to give rise to major difficulties for the exporting Party, that Party may take appropriate measures under the conditions and in accordance with the procedures laid down in Article 26. The measures shall be non-discriminatory and be eliminated when conditions no longer justify their maintenance.

Article 25

The Member States of the European Union (hereinafter referred to as 'the Member States') and Estonia shall progressively adjust any State monopolies of a commercial character so as to ensure that, by the end of the fifth year following the entry into force of this Agreement, no discrimination regarding the conditions under which goods are procured and marketed exists between nationals of the Member States and of Estonia. The Joint Committee will be informed about the measures adopted to implement this objective.

Article 26

1. In the event of the Community or Estonia subjecting imports of products liable to give rise to the difficulties referred to in Article 23 to an administrative procedure having as its purpose the rapid provision of information on the trend of trade flows, it shall inform the other Party.

2. In the cases specified in Articles 22, 23 and 24, before taking the measures provided for therein or, in cases to which paragraph 3(d) applies, as soon as possible, the Community or Estonia, as the case may be, shall supply the Joint Committee with all relevant information with a view to seeking a solution acceptable to the two Parties.

In the selection of measures, priority must be given to those which least disturb the functioning of this Agreement.

The safeguard measures shall be notified immediately to the Joint Committee and shall be the subject of periodic consultations within that body, particularly with a view to establishing a timetable for their abolition as soon as circumstances permit.

3. For the implementation of paragraph 2, the following provisions shall apply:

(a) as regards Article 23, the difficulties arising from the situation referred to in that Article shall be referred for examination to the Joint Committee, which may take any decision needed to put an end to such difficulties.

If the Joint Committee or the exporting Party has not taken a decision putting an end to the difficulties or no other satisfactory solution has been reached within 30 days of the matter being referred, the importing Party may adopt the appropriate measures to remedy the problem. These measures must not exceed the scope of what is necessary to remedy the difficulties which have arisen;

(b) as regards Article 22, the Joint Committee shall be informed of the dumping case as soon as the authorities of the importing Party have initiated an investigation. If no end has been put to the dumping or if no other satisfactory solution has been reached within 30 days of the matter being referred to the Joint Committee, the importing Party may adopt the appropriate measures;

(c) as regards Article 24, the difficulties arising from the situations referred to in that Article shall be referred for examination to the Joint Committee.

The Joint Committee may take any decision needed to put an end to the difficulties. If it has not taken such a decision within 30 days of the matter being referred to it, the exporting Party may apply appropriate measures on the exportation of the product concerned;

(d) where exceptional circumstances requiring immediate action make prior information or examination, as the case may be, impossible, the Community or Estonia whichever is concerned may, in the situations specified in Articles 22, 23 and 24, apply forthwith the precautionary measures strictly necessary to deal with the situation.

Article 27

Protocol 3 lays down rules of origin for the application of the tariff preferences provided for in this Agreement as well as the methods of administrative cooperation therewith.

Article 28

This Agreement shall not preclude prohibitions or restrictions on imports, exports or goods in transit justified on grounds of public morality, public policy or public security; the protection of health and life of humans, animals or plants; the protection of national treasures of artistic, historic or archaeological value or the protection of intellectual, industrial and commercial property or rules relating to gold and silver. Such prohibitions or restrictions shall not, however, constitute a means of arbitrary discrimination or a disguised restriction on trade between the Parties.

Article 29

Protocol 4 lays down the specific provisions to apply to trade between Estonia of the one part and Spain and Portugal of the other part, and it will be valid until 31 December 1995.

TITLE III

Payments, Competition and Other Economic Provisions

Article 30

The Parties undertake to authorize, in freely convertible currency, any payments on the current account of balance of payments to the extent that the transaction underlying the payments concerns movements of goods between the Parties which have been liberalized pursuant to this Agreement.

Article 31

With reference to the provisions of this chapter, and notwithstanding the provisions of Article 32, until a full convertibility of the Estonian currency in the meaning of Article VIII of the Articles of Agreement on the International Monetary Fund (IMF) is introduced,

Estonia may in exceptional circumstances apply exchange restrictions connected with the granting or taking up of short and medium-term credits to the extent that such restrictions are imposed on Estonia for the granting of such credits and are permitted according to Estonia's status under the IMF.

Estonia shall apply these restrictions in a non-discriminatory manner. They shall be applied in such a manner as to cause the least possible disruption to this Agreement. Estonia shall inform the Joint Committee promptly of the introduction of such measures and of any changes therein.

Article 32

1. The following are incompatible with the proper functioning of this Agreement, in so far as they may affect trade between the Community and Estonia:

(i) all agreements between undertakings, decisions by associations of undertakings and concerted practices between undertakings which have as their object or effect the prevention, restriction or distortion of competition;

(ii) abuse by one or more undertakings of a dominant position in the territories of the Community or of Estonia as a whole or in a substantial part thereof;

(iii) any public aid, which distorts or threatens to distort competition by favouring certain undertakings or the production of certain goods.

2. Any practices contrary to this Article shall be assessed on the basis of criteria arising from the application of the rules of Articles 85, 86 and 92 of the Treaty establishing the European Community or, for products covered by the ECSC Treaty, on the basis of corresponding rules of the ECSC Treaty including secondary legislation.

3. The Joint Committee shall, within three years of the entry into force of this Agreement, adopt by decision the necessary rules for the implementation of paragraphs 1 and 2.

Until these rules are adopted, the provisions of this Agreement on interpretation and application of Articles VI, XVI and XXIII of the General Agreement on Tariffs and Trade shall be applied as the rules for the implementation of paragraphs 1 point (iii) and related parts of paragraph 2.

4. (a) For the purposes of applying the provisions of paragraph 1 point (iii), the Parties recognize that during the first five years after the entry into force of this Agreement, any public aid granted by Estonia shall be assessed taking into account the fact that Estonia shall be regarded as an area identical to those areas of the Community described in Article 92 (3) (a) of the Treaty establishing the European Community. The Joint Committee shall, taking into account the economic situation of Estonia, decide whether that period should be extended by further periods of three years.

(b) Each Party shall ensure transparency in the area of public aid, inter alia by reporting annually to the other Party on the total amount and the distribution of the aid given and by providing, upon request, information on aid schemes. Upon request by one Party, the other Party shall provide information on particular individual cases of public aid.

5. With regard to products referred to in Chapters II and III of Title II:

- the provision of paragraph 1 point (iii) does not apply,
- any practices contrary to Paragraph 1 point (i) should be assessed according to the criteria established by the Community on the basis of Articles 42 and 43 of the Treaty establishing the European Community and in particular of those established in Council Regulation No. 26.

6. If the Community or Estonia considers that a particular practice is incompatible with the terms of the first paragraph of this Article, and

- is not adequately dealt with under the implementing rules referred to in paragraph 3, or
- in the absence of such rules, and if such practice causes or threatens to cause serious prejudice to the interests of the other Party or material injury to its domestic industry, including its services industry,

it may take appropriate measures after consultation within the Joint Committee or after 30 days following referral for such consultation.

In the case of practices incompatible with paragraph 1 point (iii) of this Article, such appropriate measures may, where the General Agreement on Tariffs and Trade applies thereto, only be adopted in conformity with the procedures and under the conditions laid down by the General Agreement on Tariffs and Trade and any other relevant instrument negotiated under its auspices which are applicable between the Parties.

7. Notwithstanding any provisions to the contrary adopted in conformity with paragraph 3, the Parties shall exchange information taking into account the limitations imposed by the requirements of professional and business secrecy.

Article 33

1. The Parties shall endeavour to avoid the imposition of restrictive measures including measures relating to imports for balance of payments purposes. In the event of their introduction, the Party having introduced the same shall present to the other Party as soon as possible, a time schedule for their removal.

2. Where one or more Member States or Estonia is in serious balance of payments difficulties, or under imminent threat thereof, the Community or Estonia, as the case may be, may, in accordance with the conditions established under the General

Agreement on Tariffs and Trade, adopt restrictive measures, including measures relating to imports, which shall be of limited duration and may not go beyond what is necessary to remedy the balance of payments situation. The Community or Estonia, as the case may be, shall inform the other Party forthwith.

Article 34

With regard to public undertakings, and undertakings to which special or exclusive rights have been granted, the Joint Committee shall ensure that as from the fourth year following the date of entry into force of this Agreement, the principles of the Treaty establishing the European Community, notably Article 90, and the principles of the concluding document of the April 1990 Bonn meeting of the Conference on Security and Cooperation in Europe, notably entrepreneurs' freedom of decision, are upheld.

Article 35

1. The Parties commit themselves to developing customs cooperation in order to achieve the approximation of Estonia's customs system to that of the Community.
2. Cooperation shall include the following in particular:
 - the exchange of information, including on the methods of investigation,
 - the organization of seminars and placements,
 - the introduction of the single administrative document and the interconnection between the transit system of the Community and that of Estonia,
 - the simplification of the inspections and formalities in respect of the carriage of goods.

Technical assistance shall be provided where appropriate.

3. The Parties will provide mutual administrative assistance in accordance with the provisions of Protocol 5.

Article 36

1. The Parties recognize that an important condition for the establishment of free trade between Estonia and the Community and the further economic integration of the former into the Community is the approximation of Estonia's existing and future legislation to that of the Community. Estonia shall endeavour to ensure that its trade and trade-related legislation will be gradually made compatible with that of the Community.
2. The approximation of laws shall extend to the following areas in particular: dumping, rules on competition, customs legislation, technical rules and standards.

3. The Community shall provide Estonia with technical assistance for the implementation of these measures, which may include inter alia:

- the exchange of experts,
- the provision of early information especially on relevant legislation,
- organization of seminars,
- training activities,
- aid for the translation of Community legislation in the relevant sectors.

In the selection of measures, priority must be given to those which least disturb the functioning of the Agreement. These measures shall be notified immediately to the Joint Committee and shall be the subject of the consultations within the Joint Committee if the other Party so requests.
