PART 2

Competition

Article 3

Competition

1. The Parties recognise the strategic importance of creating and maintaining open and competitive markets which maximise total welfare. The Parties shall endeavour to implement the APEC Principles to Enhance Competition and Regulatory Reform with a view to protecting the competitive process rather than competitors and ensuring that the design of regulation recognises options that minimise distortions to competition.
2. Each Party shall endeavour to ensure that under this Agreement impediments to trade and investment shall be reduced or removed through:
 - (a) application of fair competition principles to economic activities, including private and public business activities;
 - (b) application of competition and regulatory principles in a manner that does not discriminate between or among economic entities in like circumstances;
 - (c) reduction of transaction and compliance costs for business; and
 - (d) promotion of effective regulatory coordination across borders.
3. The Parties agree that they shall effectively protect the competitive process across their economies as follows:
 - (a) they shall endeavour to consult and cooperate in the development of any new competition measures, whether these are specific or of general application;
 - (b) where there are regulatory authorities responsible for competition, they shall be adequately resourced to carry out their functions, including effective non-discriminatory enforcement;
 - (c) where there are regulatory authorities responsible for competition, they shall endeavour to exchange information and explore the scope for further cooperation between them, with particular emphasis on transactions or conduct in one that has competition effects in the other’s market, or in both Parties’ markets.

PART 3

Trade in Goods

Article 4

Tariffs

Each Party shall eliminate all tariffs on goods originating in the other Party as of the date of entry into force of this Agreement. All tariffs on goods originating in either Party shall remain free after that date.

Article 5
Rules of Origin¹

1. Goods exported from one Party to the other Party, or which entered the commerce of Australia only for the purpose of unloading and reloading, shall be treated as goods originating in the first Party if these goods are:

(a) wholly produced or obtained in that Party;

or

(b) partly manufactured in that Party, subject to the following conditions:

(i) the last process of manufacture of the goods was performed in the territory of that Party; and

either

(ii) the expenditure on one or more of the items set out below is not less than 40 per cent of the factory or works cost of such goods in their finished state:

(a) materials, including inner containers, that originate in one or both Parties; or

(b) costs referred to in paragraph 2 incurred in one or both Parties; or

(c) partly on such materials, including inner containers, and partly on costs referred to in paragraph 2 incurred in one or both Parties;

or

(iii) where the goods do not contain any other qualifying area content, the expenditure on quality control checking and testing procedures is not less than 50 per cent of the factory or works cost of the goods in their finished state.

2. The costs referred in paragraph 1(b)(ii)(b) and (c) shall be the sum of costs of materials (excluding customs, excise or other duties), in the form in which they are received at the factory or works, as well as labour and overheads. It shall not include any profit or marketing cost elements of the goods in their finished state. The process of packaging by itself shall not confer origin.

3. Where a Party considers that, in relation to particular goods partly manufactured in its territory, the application of paragraph 1(b)(ii) and (iii) is inappropriate, then that Party may request in writing consultation with the other Party to determine a suitable proportion of the factory or works cost or quality control checking and testing procedures cost different from that provided in paragraph 1(b)(ii) and (iii). The Parties shall consult promptly and may mutually determine for such goods a proportion of the factory or works cost or quality control checking and testing procedures cost different from that provided in paragraph 1(b)(ii) and (iii).

4. Both Customs administrations shall require certification from the manufacturer for the importation of a good into their respective territories for which an importer claims preferential treatment. For the importation of a good into Singapore, certification shall be required in a prescribed form.

5. Verification of importers' declarations:

¹ This Article shall be read in conjunction with the Explanatory Notes contained in Annex 1.

² For the purposes of this Agreement, a subsidy is as defined in Article 1.1 of the ATO Agreement on Subsidies and Countervailing Measures.

(a) where an importing Party has reasonable grounds to believe that any importer of a good from the exporting Party has failed to submit adequate, true and accurate particulars relating to the claim for tariff preferences under Part 3, it may either deny such preferential access, or request the exporting Party to verify the claim of tariff preference made by the importer;

(b) where a request has been made to the exporting Party to verify a claim of tariff preference made by the importer, the exporting Party shall endeavour to take all necessary measures to confirm any such particulars declared in the clearance of those goods by the importer;

(c) if such a verification is unsatisfactory or when the exporting Party is unable to provide the verification, the importing Party may, upon informing the exporting Party and with the knowledge of the importer concerned and with the consent of the exporter or supplier or manufacturer concerned, visit the exporter or supplier or manufacturer concerned for the purpose of verifying the preference claim. If no consent is given by the exporter or supplier or manufacturer concerned, the importing Party may disallow the tariff preference that may be available under this Part;

(d) if the verification provided by the exporting Party or carried out by the importing Party with the exporter or supplier or manufacturer concerned:

(i) shows inadequate evidence of entitlement, the importing Party may disallow the tariff preference that may be available under this Part;

or

(ii) substantiates the claim, the importing Party shall allow preferential entry.

6. During the biennial reviews of the operation of this Agreement provided for in Article 68, and earlier if so agreed, the Parties undertake to review these rules of origin, including the requirements necessary for goods to benefit from this Agreement, with a view to improving bilateral trade flows.

Article 6

Non-Tariff Measures

1. Except as otherwise provided for in this Agreement, neither Party shall adopt or maintain any prohibition or restriction on the importation of any good of the other Party or on the export or sale for export of any good destined for the territory of the other Party.

2. The Parties agree that procedures, fees and formalities imposed in connection with import and export shall be imposed in a manner consistent with their WTO obligations.

Article 7

Subsidies²

1. The Parties agree to prohibit export subsidies³ on all goods including agricultural products.

³ "Export Subsidies" means subsidies as defined by Article 3 of the WTO Agreement on Subsidies and Countervailing Measures with the additional provision that, for the purposes of this Agreement, that definition extends also to all agricultural products.

⁴ "Actionable subsidies" are subsidies referred to as such in the relevant provisions of the WTO SCM Agreement.

⁵ "Safeguard measures" means those measures falling within the ambit of the WTO Agreement on Safeguards.

2. If either Party grants or maintains any subsidy which operates to increase exports of any product from, or to reduce imports of any product into, its territory, it shall notify the other Party of the extent and nature of the subsidisation, of the estimated effect of the subsidisation on the quantity of the affected product or products imported into or exported from its territory and of the circumstances making the subsidisation necessary. In any case in which it is determined that serious prejudice to the interests of the other Party is caused or threatened by any subsidisation, the Party granting the subsidy shall, upon request, discuss with the other Party the possibility of limiting the subsidisation. This paragraph shall be applied in conjunction with the relevant applicable provisions of the General Agreement on Tariffs and Trade 1994 (GATT 1994) and the WTO Agreement on Subsidies and Countervailing Measures (WTO SCM Agreement).

3. The Parties reaffirm their commitment to abide by the provisions of the WTO SCM Agreement in respect of actionable subsidies.⁴

4. Each Party shall seek to avoid causing adverse effects to the interests of the other Party in terms of Article 5 of the WTO SCM Agreement.

Article 8

Safeguard Measures

Neither Party shall take safeguard measures against goods originating in the other Party from the date of entry into force of this Agreement.

Article 9

Anti-Dumping

1. Both Parties are Members of the WTO Agreement on Implementation of Article VI of the GATT 1994 (WTO Anti-Dumping Agreement). For the purposes of trade between the Parties, the following changes are agreed in terms of implementation of the WTO Anti-Dumping Agreement in order to bring greater discipline to anti-dumping investigations and to minimise the opportunities to use anti-dumping in an arbitrary or protectionist manner:

(a) the de minimis dumping margin of 2 per cent expressed as a percentage of the export price below which no anti-dumping duties can be imposed provided for in Article 5.8 of the WTO Anti-Dumping Agreement is raised to 5 per cent;

(b) the new de minimis margin of 5 per cent established in sub-paragraph (a) is applied not only in new cases but also in refund and review cases;

(c) the maximum volume of dumped imports from the exporting Party which shall normally be regarded as negligible under Article 5.8 of the WTO Anti-Dumping Agreement is increased from 3 per cent to 5 per cent of imports of the like product in the importing Party. Existing cumulation provisions under Article 5.8 continue to apply;

Page 7

(d) the time frame to be used for determining the volume of dumped imports under the preceding sub-paragraphs shall be representative of the imports of both dumped and non-dumped goods for a reasonable period. Such reasonable period shall normally be at least 12 months;

(e) the period for review and/or termination of anti-dumping duties provided for in Article 11.3 of the WTO Anti-Dumping Agreement is reduced from five years to three years.

2. Notification procedures shall be as follows:

(a) immediately following the acceptance of a properly documented application from an industry in one Party for the initiation of an anti-dumping investigation in respect of goods from the other Party, the Party that has accepted the properly documented application shall immediately inform the other Party;

(b) where a Party considers that in accordance with Article 5 of the WTO Anti-Dumping Agreement there is sufficient evidence to justify the initiation of an anti-dumping investigation, it shall give written notice to the other Party in accordance with Article 12.1 of that Agreement, and observe the requirements of Article 17.2 of that Agreement concerning consultations.

PART 4

Customs Procedures

Article 10

Scope

This Part shall apply to customs procedures required for clearance of goods traded between the two Parties, in accordance with their national laws, rules and regulations.

Article 11

1. The Parties recognise that the objectives of this Agreement may be promoted by the simplification of customs procedures for their bilateral trade.
2. Customs procedures of both Parties shall conform where possible with the standards and recommended practices of the World Customs Organisation.
3. The Customs administrations of both Parties shall actively work together to develop mutually beneficial solutions to minimise risks and to maximise opportunities for facilitating customs clearances. In this regard, the Customs administrations shall consider negotiating an arrangement on detailed areas of future co-operation within 1 year from the date of entry into force of this Agreement.
4. The Customs administrations of both Parties shall periodically review customs procedures with a view to their further simplification.

Page 8

Article 12

Paperless Trading

With a view to implementing the APEC Blueprint for Action on Electronic Commerce, in particular the Paperless Trading Initiative, the Customs administrations of both Parties shall have in place by the date of entry into force of this Agreement an electronic environment that supports electronic business applications between each Customs administration and its trading community.

Article 13

Risk Management

1. In order to facilitate the clearance of low risk transactions, the Parties agree that customs compliance activities should be focused on high risk goods and travellers. Accordingly, each Party undertakes that compliance activities at the time of entry shall not normally exceed 10 per cent of total customs transactions.

2. The Parties shall not use a threshold value of goods as a sole basis for the selection of goods for customs inspection.

PART 5

Services

Article 14

General Undertaking

The Parties undertake to expand trade in services on a mutually advantageous basis, under conditions of transparency and progressive liberalisation through successive reviews, with the aim of securing an overall balance of rights and obligations, while recognising the rights of both Parties to regulate, and to introduce new regulations, giving due respect to national policy objectives including where these reflect local circumstances.

Article 15

Scope

1. This Part shall apply to measures by Parties affecting trade in services.
2. New services, including new financial services, shall be considered for possible incorporation into this Agreement at future reviews held in accordance with Article 68, or at the request of either Party immediately. The supply of services which are not technically or technologically feasible when this Agreement comes into force shall, when they become feasible, also be considered for possible incorporation at future reviews or at the request of either Party immediately.
3. In financial services, notwithstanding any other provisions of this Agreement, a Party shall not be prevented from taking measures for prudential reasons, including for the protection of investors, depositors, policy holders or persons to whom a fiduciary duty is owed by a financial service supplier or to ensure the integrity and stability of the financial system. Where such measures do not conform with the provisions of this Agreement, they shall not be used as a means of avoiding that Party's commitments or obligations hereunder.

Page 9

⁶

Where the service is not supplied directly by a legal person but through other forms of commercial presence such as a branch or a representative office, the service supplier (i.e. the legal person) shall, nonetheless, through such presence be accorded the treatment provided for service suppliers under the Agreement. Such treatment shall be extended to the presence through which the service is supplied and need not be extended to any other parts of the supplier located outside the territory where the service is supplied.

4. Government procurement of services shall be governed by Part 8.

3. Formally identical or formally different treatment shall be considered to be less favourable if it modifies the conditions of competition in favour of services or service suppliers of one Party compared to the like service or service suppliers of the other Party.

4. Specific commitments assumed under this Article shall not be construed to require either Party to compensate for any inherent competitive disadvantages which result from the foreign character of the relevant services or service suppliers.

Article 19

Additional Commitments

The Parties may negotiate commitments with respect to measures affecting trade in services not subject to scheduling under Articles 17 and 18, including those regarding qualifications, standards or licensing matters. Such commitments shall be entered in a Party's schedule of commitments.

Page 13

Article 20

Specific Commitments

1. Each Party has set out an initial schedule of the specific commitments it undertakes in accordance with the objective of liberalisation of trade in most services by the date of entry into force of this Agreement.

2. Each Party's schedule of commitments shall clearly specify:

(a) the sectors/subsectors in which commitments are undertaken;

(b) any terms, limitations and conditions on market access;

(c) any conditions and qualifications on national treatment; and

(d) any additional commitments.

3. The schedules of commitments shall be annexed to this Agreement as Annex 2 and shall form an integral part thereof.

4. As part of the reviews of this Agreement provided for in Article 68, the Parties undertake to review their schedules of commitments at least every two years, but earlier if so agreed, and progressively to expand these initial commitments as well as expand market access and/or national treatment between them in accordance with the APEC objective of free and open trade in services by 2010. The first review shall include telecommunications, postal services, credit reporting services and disaster insurance.

5. Trade in a particular number of services sectors and measures affecting trade in services may not be fully liberalised by 1 January 2010 notwithstanding paragraph 4. When it appears this shall be the case, the Parties agree to meet no later than 1 January 2008 to identify a list of such services sectors and measures. This list shall be set out in an exchange of letters between the Parties. The Parties shall consult on a mutually acceptable solution for these sectors and measures and such consultations shall continue for as long as it takes to achieve that solution. The solution may include agreement on a longer timeframe for liberalisation. This provision shall continue to apply after 1 January 2010.

6. The reviews referred to in paragraph 4 shall also examine limitations on market access and/or national treatment entered in the Parties' schedules of commitments in accordance with the objective identified in that paragraph.

7. A Party may, upon reasonable notice of at least three months, propose a modification of a commitment in its schedule of commitments by written notification to the other Party. In proposing such a modification, the Party concerned shall also propose a means by which the overall level of commitments undertaken by that Party under the Agreement shall be maintained. On receiving such written notification, the other Party may request consultations regarding the proposed modification aimed at ensuring an overall balance of benefits under the Agreement is maintained, and if such consultations fail to achieve a satisfactory solution, the matter shall be dealt with in accordance with Part 10.

Page 15

the Parties agree to have identified by the date of entry into force of this Agreement priority areas to address with respect to the recognition of professional qualifications or registration. In identifying initial priority areas, the Parties agree to focus on sectors where specific commitments have been undertaken, and subject to the terms, limitations, conditions, or qualifications set out therein. Thereafter the Parties shall endeavour to consider sectors where no specific commitments have been undertaken.

2. The Parties agree to facilitate the establishment of dialogue between experts in these priority areas with a view to the achievement of early outcomes on recognition of professional qualifications or registration in these areas.

3. Such recognition may be achieved through recognition of regulatory outcomes, recognition of professional qualifications awarded by one Party as a means of complying with the regulatory requirements of the other Party (whether accorded unilaterally or by mutual arrangement) or by other

recognition arrangements which might be agreed between the Parties.

4. The priority areas for further work on professional recognition requirements and the recognition outcomes achieved on initial priorities shall be reviewed as part of the reviews of this Agreement provided for in Article 68 and shall take place at least every two years.

Article 23

Subsidies

1. Except as provided for in this Article, subsidies related to trade in services shall not be covered under this Part.

2. The Parties shall review the issue of disciplines on subsidies related to trade in services in the context of the reviews of this Agreement provided for in Article 68. They shall pay particular attention to any disciplines agreed under Article XV of GATS with a view to their incorporation into this Agreement.

3. The Parties shall consult on appropriate steps in regard to subsidies related to trade in services where any subsidies issues arise in bilateral services trade under this Agreement.

Article 24

Monopolies

Article 25

Extension of Benefits

A service supplier of a non-Party that is a legal person constituted under the laws of a Party shall be entitled to treatment granted under this Part provided that it engages in substantive business operations in the territory of one or both Parties.

1. In the event that either Party (or any agency, institution, statutory body or corporation designated by it) as a result of an indemnity it has given in respect of an investment or any part thereof makes payment to its own investors in respect of any of their claims under this Part, the other Party acknowledges that the former Party (or any agency, institution, statutory body or corporation designated by it) is entitled by virtue of subrogation to exercise the rights and assert the claims of its own investors. The subrogated rights or claims shall not be greater than the original rights or claims of such investors.

4. “Harmonisation” means that each Party harmonises its standards and technical regulations with relevant international standards where they exist.

Page 23

Article 40

Mutual Recognition of Equivalence of Mandatory Requirements

Coverage

1. This Article shall apply to products, and laws and regulations relating to products, as may be covered in the Product Chapters.

Applicability

2. Under this Article, mutual recognition shall affect certain laws relating to the products of the Party where the products are intended for supply. Such laws may, unless otherwise provided in the Product Chapters, include:

(a) requirements relating to production, composition, quality or performance of a product;

(b) requirements that a product satisfy certain standards relating to presentation such as packaging, labelling, date or age stamping; and

(c) requirements that products be inspected, passed or similarly dealt with.

3. The laws and requirements of each Party, including but not limited to those that would prevent or restrict or would have the effect of preventing or restricting the supply or use of a product, and how they shall be affected by mutual recognition shall be specified in the relevant Product Chapters.

4. The requirements covered in this Article are not intended to affect the operation of any laws to the extent that these laws regulate:

(a) the manner of the supply of products or the manner in which the sellers conduct or are required to conduct their business, so long as those laws apply equally to products produced in or imported into the Parties. These include:

(i) the contractual aspects of the supply of the products;

(ii) the registration of sellers;

(iii) the requirements for business franchise licences;

(iv) the persons to whom products may or may not be supplied; and

(v) the circumstances in which the products may or may not be supplied;

(b) the transportation, storage or handling of products so long as those laws apply equally to products produced in or imported under the laws of the Parties and so long as they are directed at matters affecting, inter alia, human health or safety, animal or plant life or health, or the environment;

Page 24

(c) the inspection of products so long as such inspection is not a prerequisite to the supply of products and the laws apply equally to products produced in or imported under the laws of the Parties and so long as they are directed at matters affecting, inter alia, human health or safety, animal or plant life or health, or the environment.

5. This Article shall not affect the operation of any laws or regulations prohibiting or restricting the importation of products into one Party from the other Party.

Article 41

Mutual Recognition of Conformity Assessment

Coverage

1. This Article shall apply to products and/or assessments of manufacturers of products, and their mandatory requirements as may be specified in the Product Chapters.

General Obligations

2. Each Party recognises that the conformity assessment bodies designated by the other Party in accordance with this Article are competent to undertake the conformity assessment activities necessary to demonstrate compliance with its mandatory requirements.

3. New Zealand shall accept the results of conformity assessment activities to demonstrate conformity of products and/or manufacturers with its mandatory requirements when the conformity assessment activities are undertaken by conformity assessment bodies designated by Singapore's designating authorities in accordance with this Article.

4. Singapore shall accept the results of conformity assessment activities to demonstrate conformity of products and/or manufacturers with its mandatory requirements when the conformity assessment activities are undertaken by conformity assessment bodies designated by New Zealand's designating authorities in accordance with this Article.

5. This Article shall not require mutual acceptance of the mandatory requirements of each Party, or mutual recognition of the equivalence of such mandatory requirements. The Parties shall, however, give consideration to increasing the degree of harmonisation or equivalence of their mandatory requirements, where appropriate and where consistent with good regulatory practice. Where both Parties agree that the mandatory requirements are harmonised or established as equivalent, the results of conformity assessment that demonstrate compliance with the exporting Party's mandatory requirements shall be accepted as demonstrating compliance with the importing Party's mandatory requirements without the need for further conformity assessment by the importing Party to demonstrate compliance with its own mandatory requirements.

6. Each Party shall, consistent with the relevant provisions of the WTO Agreement on Technical Barriers to Trade and the WTO Agreement on the Application of Sanitary and Phytosanitary Measures, use international standards, or the relevant parts of international standards, as a basis for its mandatory requirements where relevant international standards exist or their completion is imminent, except when such international standards or their relevant parts are ineffective or inappropriate.

Designating Authorities

7. The Parties shall ensure that their designating authorities have the necessary authority to designate, monitor, suspend, remove suspension and withdraw designation of the conformity assessment bodies within their respective jurisdictions.

Page 25

8. Designating authorities shall consult, as necessary, with their counterparts of the other Party to ensure the maintenance of confidence in conformity assessment processes and procedures. This consultation may include joint participation in audits related to conformity assessment activities or other assessments of designated conformity assessment bodies, where such participation is appropriate, technically possible and within reasonable cost.

Designation of Conformity Assessment Bodies

9. In designating conformity assessment bodies, designating authorities shall observe the relevant stipulated requirements.

10. Designating authorities shall specify the scope of the conformity assessment activities for which a conformity assessment body has been designated.

11. Each Party shall give the other Party advance notice of at least 7 days, or such other time period as may be specified in the relevant Product Chapter, of any changes, including suspensions, to their list of designated conformity assessment bodies.

12. The results of conformity assessment activities undertaken by a designated conformity assessment body shall be valid for acceptance for the purposes of paragraphs 3 and 4 of this Article from the date its designation takes effect.

13. Designating authorities shall ensure that the conformity assessment bodies that they designate maintain the necessary technical competence to demonstrate the conformity of a product with the standards and/or specifications to meet mandatory requirements. Conformity assessment bodies of a non-Party shall be acceptable for designation by the Parties where there are no conformity assessment bodies designated in the territory of a Party and the other Party agrees to such designation.

14. Designating authorities shall exchange information concerning the procedures used to ensure that the designated conformity assessment bodies are technically competent and comply with the relevant stipulated requirements.

15. Designating authorities shall ensure that the conformity assessment bodies they designate participate in appropriate proficiency-testing programmes and other comparative reviews such as non government-to-government mutual recognition agreements, so that confidence in their technical competence to undertake the required conformity assessment is maintained.

Suspension and Withdrawal of Conformity Assessment Bodies

16. Each Party shall have the right to challenge a designated conformity assessment body's technical competence and compliance with the relevant stipulated requirements. This right shall be exercised only in exceptional circumstances and where supported by relevant expert analysis or evidence. A Party shall exercise this right by notifying the other Party in writing. Such notification shall be accompanied by the supporting expert analysis or evidence.

17. Except in urgent circumstances, the Parties shall, prior to a challenge under paragraph 16, enter into consultations with a view to seeking a mutually satisfactory solution. In urgent circumstances, consultations shall take place immediately after the right of challenge has been exercised.

18. The consultations referred to in paragraph 17 shall be conducted expeditiously with a view to resolving all issues and seeking a mutually satisfactory solution within the time period specified in the relevant Product Chapter. If this is not achieved, the matter shall be resolved in accordance with the provisions of Part 10.

Page 26

19. The Product Chapters may provide for additional procedures, such as verification and time limits, to be followed in relation to a challenge.

20. Unless the Parties decide otherwise, the designation of the challenged designated conformity assessment body shall be suspended by the relevant designating authority for the relevant scope of designation from the time its technical competence or compliance is challenged, until either:

(a) the challenging Party is satisfied as to the competence and compliance of the conformity assessment body; or

(b) the designation of that conformity assessment body has been withdrawn.

21. The results of conformity assessment activities undertaken by a designated conformity assessment body on or before the date of its suspension or withdrawal shall remain valid for acceptance for the purposes of paragraphs 3 and 4 unless otherwise agreed by the Parties.

22. Designating authorities shall compare methods used to verify that the designated conformity assessment bodies comply with the relevant stipulated requirements.

Article 42

Mutual Recognition of Equivalence of Standards

Where regulatory compliance is required and where there is equivalence of outcomes, each Party shall accept the standards of the other Party as equivalent to its own corresponding standards.

Article 43

Exchange of Information

1. The Parties shall exchange information concerning their mandatory requirements and conformity assessment procedures.
2. Each Party shall inform the other Party of any proposed changes to its mandatory requirements. Except where considerations of health, safety or environmental protection warrant more urgent action, each Party shall notify the other Party of the changes within the time period set out in the relevant Product Chapters or, if no time period is specified, at least 60 days before the changes enter into force.
3. The Parties may agree on the provision of other information for a specific sector in the Product Chapters.

Article 44

Preservation of Regulatory Authority

1. Each Party retains all authority under its laws to interpret and implement its mandatory requirements.
2. This Part shall not limit the authority of a Party to determine the level of protection it considers necessary for the protection of inter alia human health or safety, animal or plant life or health, or the environment.
3. This Part shall not limit the authority of a Party to take all appropriate measures whenever it ascertains that products may not conform with its mandatory requirements. Such measures may
Page 27
include withdrawing the products from the market, prohibiting their placement on the market, restricting their free movement, initiating a product recall, initiating legal proceedings or otherwise preventing the recurrence of such problems, including through a prohibition on imports. If a Party takes such measures, it shall notify the other Party within 15 days of taking the measures, giving its reasons.

Article 45

Confidentiality

1. A Party shall not be required to disclose confidential proprietary information to the other Party except where such disclosure would be necessary for the other Party to demonstrate the technical competence of its designated conformity assessment bodies and conformity with the relevant stipulated requirements.
2. A Party shall, in accordance with its applicable laws, protect the confidentiality of any proprietary information disclosed to it in connection with conformity assessment activities and/or designation procedures.

PART 8

Government Procurement

Article 46

Establishment of a Single Market

1. The Parties agree to establish a single New Zealand/Singapore government procurement market, in order to maximise competitive opportunities for New Zealand/Singapore suppliers, and reduce costs of doing business for both government and industry.
2. This shall be achieved by the Parties:
 - (a) committing to implement the APEC Non-Binding Principles on Government Procurement relating to transparency, value for money, open and effective competition, fair dealing, accountability and due process, and non-discrimination;
 - (b) ensuring the opportunity exists for their suppliers to compete on an equal and transparent basis for government contracts;

(c) ensuring the non-application against their suppliers of preferential schemes and other forms of discrimination based on the place of origin of goods and services unless such schemes or forms of discrimination fall within Article 81;

(d) providing a mechanism for cooperation to work towards achieving the greatest possible consistency in contractual, technical and performance standards and specifications, and simplicity and consistency in the application of procurement policies, practices and procedures.

Article 47

Scope and Coverage

1. This Part applies to government procurement valued at above Special Drawing Rights (SDR) 50,000. The Parties shall consult and agree on a common basis for expressing this value threshold in

Page 28

their respective national currency equivalents as at the date of entry into force of this Agreement, and as at the date of reviews of the operation of this Agreement held in accordance with Article 68.

2. Government procurement of services is subject to a Party's schedule of commitments in Annex 2 and the terms, limitations, conditions or qualifications set out therein.¹⁰

3. Where government bodies require enterprises not covered under this Part to award contracts in accordance with particular requirements, Article 49 shall apply *mutatis mutandis* to such requirements.

Article 48

Definitions

For the purposes of this Part:

(a) "designated bodies" means bodies designated in each of the Parties to investigate complaints about non-compliance with this Part; they may include an agency or office responsible to a Party, or a position located within such agency or office. The designated body for Singapore is the Ministry of Finance and the designated body for New Zealand is the Ministry of Economic Development;

(b) "goods and services" means but is not limited to goods alone, services alone or goods and related services. Computer software is defined as "goods" for this purpose. (e) “government procurement” means procurement by government bodies, that is departments and other bodies, including statutory authorities, which are controlled by the Parties and excludes procurement by any body corporate or other legal entity that has the power to contract, except where the Parties exercise their discretion to determine that this Part shall apply. In the case of regional or local governments or authorities, and in the case of procurement of services by non-governmental bodies in the exercise of powers delegated by central, regional or local governments or authorities, the Parties shall use their best endeavours to encourage wider application of this Part, consistent with good commercial practice, to procurement by all such governments, authorities and bodies;

(g) “value for money” means the best available outcome for money spent in terms of the procuring agency's needs. The test of value for money requires relevant comparison of the whole of life costs and benefits relating directly to the procurement. “Whole of life costs and benefits” include fitness for purpose and other considerations of quality, performance, price, delivery, accessories and consumables, service support and disposal.

Article 49

General Principles

Except as provided otherwise in this Part, the Parties shall:

(a) at all times conduct their procurement activities in accordance with the spirit and intent of this Part;

(b) ensure that all government bodies within their territories comply with this Part;

(c) provide to services, goods and suppliers of the other Party equal opportunity and treatment no less favourable than that accorded to their own domestic services, goods and suppliers;

(d) promote opportunities for their suppliers to compete for government business on the basis of value for money and avoid purchasing practices which discriminate or are otherwise biased against, or have the effect of denying equal access or opportunity to, their services, goods and suppliers, while conforming with any commitments of the Parties under international government procurement agreements;

(e) use value for money as the primary determinant in all procurement decisions; and

(f) achieve maximum practicable simplicity and consistency in the application of procurement policies, practices and procedures.

Article 50

Valuation of Contracts

1. The following provisions shall apply in determining the value of contracts for purposes of implementing this Part.
2. Valuation shall take into account all forms of remuneration, including any premiums, fees, commissions and interest receivable.
3. The selection of a valuation method by a government body shall not be made, nor shall any procurement requirement be divided, with the intention of avoiding the application of this Part.
4. In cases where an intended procurement specifies the need for option clauses, the basis for valuation shall be the total value of the maximum permissible procurement, inclusive of optional purchases.

Page 30

Article 51

Rules of Origin

A Party shall not apply rules of origin to goods or services imported or supplied from the other Party, for purposes of government procurement, which are different from the rules of origin applied in the normal course of trade and at the time of the transaction in question to imports or supplies of the same goods or services from that other Party.

Article 52

Procurement Procedures

1. Each Party shall ensure that the procurement procedures, including tendering and supplier invitation, registration of interest, prequalification, selection, negotiation and contract award procedures, of its government bodies are applied in a manner consistent with this Part, the APEC Non-Binding Principles on Government Procurement, and good commercial practice.
2. In cases of procurement by open call for tender, invitations to tender shall be advertised in a publicly accessible medium; and in cases of procurement by selective invitation to tender, prior calls to prequalify or register interest shall be advertised in a publicly accessible medium.
3. The Parties shall ensure that government bodies make readily available on request by New Zealand/Singapore suppliers information on contract awards, including the name of the supplier, the goods or services supplied and value of the contract award, unless the release of such information would impede law enforcement or otherwise be contrary to the public interest or would prejudice the legitimate commercial interests of particular enterprises, public or private, or might prejudice fair competition between suppliers.
4. Government bodies shall, on request from an unsuccessful supplier which participated in the relevant tender, promptly provide pertinent information concerning reasons for the rejection of its tender, unless the release of such information would impede law enforcement or otherwise be contrary to the public interest or would prejudice the legitimate commercial interest of particular enterprises, public or private, or might prejudice fair competition between suppliers.
5. Each Party shall also take appropriate steps to enhance transparency at all stages of their procurement procedures, and endeavour to provide the information specified in paragraphs 2 and 3 for all government bodies from a single point of access through a public medium, such as the Internet.

Article 53

Prohibition of Offsets

1. Government bodies shall not, in the qualification and selection of suppliers, goods and services, or in the evaluation of tenders and award of contracts, impose, seek or consider offsets in relation to government procurement from New Zealand or Singapore suppliers.

Page 31

Article 54

Disputes between a Supplier and the Procuring Government Body

1. In the event of a complaint by a supplier that there has been a breach of this Part, each Party shall encourage the supplier to seek resolution of its complaint in consultation with the procuring government body. In such instances the procuring government body shall accord timely and impartial consideration to any such complaint.
2. Failing resolution through consultation between the supplier and the procuring government body, the complainant should seek the assistance of the designated body of the Party in whose territory the complainant is located. A complaint made informally may be processed informally if this is deemed appropriate by the designated body and the complainant.
3. Failing resolution, the designated body receiving the complaint shall formally raise it with the designated body of the other Party for investigation of any alleged breach of this Part and for a report by it in writing. The Parties agree to provide details and documentation to permit a full investigation of complaints. Confidentiality of all information shall be maintained.
4. If the response is satisfactory to the designated body which received the original complaint, then the complaint shall lapse.
5. If satisfactory resolution is not achieved, the designated body which received the original complaint may then refer the matter to the Minister responsible for procurement in the other Party for further investigation and decision.
6. In the event that a complaint cannot be resolved through the steps set out above within 30 days after the designated body receiving the original complaint has formally raised it with the designated body of the other Party, the provisions of Part 10 shall apply. A Party shall be entitled by subrogation to exercise the rights and assert the claims of its own supplier against the other Party. The subrogated rights or claims shall not be greater than the original rights or claims of that supplier.

Article 55

Exemptions

1. It is recognised by the Parties that, under certain circumstances, there may be a need for exemption from some of the requirements of this Part for certain government bodies, for certain classes of procurement, and for procurement undertaken in accordance with specific government policies.
2. Exemptions from some of the requirements of this Part may be sought by either Party for government bodies which meet the following criteria subject to consultation and agreement with the other Party:
 - (a) joint bodies with any other State or separate customs territory which is not party to this Agreement;
 - (b) bodies funded primarily from specific special levies on particular industries, or by community groups or from special grants or public donations.

It is not intended, however, that any government body shall be granted full exemption from the requirements of this Part. When considering applications for partial exemptions, the Parties shall exercise their authority with due diligence in accordance with the objectives of this Part.
Page 32

3. The following classes of procurement are exempt from the application of this Part:

(a) internal procurement by a government from its own bodies where no other supplier has been asked to tender. If, however, tenders are called or invited, the provisions of this Part shall apply whether or not a government body submits a tender;

Scope and Coverage

1. The rules and procedures of this Part shall apply with respect to the avoidance or settlement of disputes between the Parties concerning their rights and obligations under this Agreement, but are without prejudice to the rights of the Parties to have recourse to dispute settlement procedures available under other agreements to which they are party.

2. For the avoidance of doubt, the Parties agree that the provisions of this Agreement shall be interpreted in accordance with the general principles of international law and consistently with the objectives set out in Article 1.

Article 59

Consultations

1. Each Party shall accord adequate opportunity for consultations regarding any representations made by the other Party with respect to any matter affecting the implementation, interpretation or application of this Agreement. Any differences shall, as far as possible, be settled by consultation between the Parties.

2. Any Party which considers that any benefit accruing to it directly or indirectly under this Agreement is being nullified or impaired, or that the attainment of any objective of this Agreement is being impeded as a result of failure of the other Party to carry out its obligations under this Agreement or the existence of any other situation may, with a view to achieving satisfactory settlement of the matter, make representations or proposals to the other Party, which shall give due consideration to the representations or proposals made to it.

3. If a request for consultation is made, the Party to which the request is made shall reply to the request within 7 days after the date of its receipt and shall enter into consultations within a period of no more than 30 days after the date of receipt of the request, with a view to reaching a mutually satisfactory solution.

4. The Parties shall make every effort to reach a mutually satisfactory resolution of any matter through consultations. To this end, the Parties shall:

(a) provide sufficient information to enable a full examination of how the measure might affect the operation of the Agreement;

(b) treat any confidential or proprietary information exchanged in the course of consultations on the same basis as the Party providing the information.

Article 60

Good Offices, Conciliation or Mediation

1. The Parties may at any time agree to good offices, conciliation or mediation. They may begin at any time and be terminated at any time.

2. If the Parties agree, procedures for good offices, conciliation or mediation may continue while the dispute proceeds for resolution before an arbitral tribunal appointed under Article 61.

Article 61

Appointment of Arbitral Tribunals

1. If the consultations fail to settle a dispute within 60 days after the date of receipt of the request for consultations, the Party which made the request for consultations may make a written request to the other Party to appoint an arbitral tribunal. The request shall include a statement of the claim and the grounds on which it is based.

2. The arbitral tribunal shall consist of three members. Each Party shall appoint an arbitrator within 30 days of the receipt of the request, and the two arbitrators appointed shall designate by common agreement the third arbitrator, who shall chair the tribunal. The latter shall not be a national of either of the Parties, nor have his or her usual place of residence in the territory of one of the Parties, nor be employed by either of them, nor have dealt with the case in any capacity.

3. If the chair of the tribunal has not been designated within 30 days of the appointment of the second arbitrator, the Director-General of the WTO shall at the request of either Party appoint the chair of the arbitral tribunal within a further one month's period.

4. If one of the Parties does not appoint an arbitrator within 30 days of the receipt of the request, the other Party may inform the Director-General of the WTO who shall appoint the chair of the

If after such period that Party has still not appointed an arbitrator, the chair shall inform the Director-General of the WTO who shall make this appointment within a further 30 days.

5. For the purposes of paragraphs 1, 2, 3 and 4, any person appointed as a member or chair of the arbitral tribunal by either Party or by the Director-General of the WTO must be a well-qualified governmental or non-governmental individual, and can include persons who have served on or presented a case to a WTO panel, served in the Secretariat of the WTO, taught or published on international trade law or policy, or served as a senior trade policy official of a Member of the WTO. The Parties recognise that the arbitral tribunal should be composed of individuals of relevant technical or legal expertise.

Article 62

Functions of Arbitral Tribunals

1. The function of an arbitral tribunal is to make an objective assessment of the dispute before it, including an examination of the facts of the case and the applicability of and conformity with this Agreement, and make such other findings and rulings necessary for the resolution of the dispute referred to it as it thinks fit. The findings and rulings of the arbitral tribunal shall be binding on the Parties.

2. The arbitral tribunal shall, apart from the matters set out in Article 63, regulate its own procedures in relation to the rights of Parties to be heard and its deliberations.

Page 35

Article 63

Proceedings of Arbitral Tribunals

1. An arbitral tribunal shall meet in closed session. The Parties shall be present at the meetings only when invited by the arbitral tribunal to appear before it. The reports of the arbitral tribunal shall be drafted without the presence of the Parties in the light of the information provided and the statements made.

2. The arbitral tribunal shall have the right to seek information and technical advice from any individual or body which it deems appropriate. A Party shall respond promptly and fully to any request by an arbitral tribunal for such information as the arbitral tribunal considers necessary and appropriate.

3. The deliberations of an arbitral tribunal and the documents submitted to it shall be kept confidential. Nothing in this Article shall preclude a Party from disclosing statements of its own positions and its initial submission to the public. A Party shall treat as confidential information submitted by another Party to the arbitral tribunal which that Party has designated as confidential. Where a Party submits a confidential version of its written submissions to the arbitral tribunal, it shall also, upon request of a Party, provide a non-confidential summary of the information contained in its submissions that could be disclosed to the public.

4. Before the first substantive meeting of the arbitral tribunal with the Parties, the Parties shall transmit to the arbitral tribunal written submissions in which they present the facts of their case and their arguments.

5. At its first substantive meeting with the Parties, the arbitral tribunal shall ask the Party which has brought the complaint to present its case. Subsequently, and still at the same meeting, the Party against which the complaint has been brought shall be asked to present its point of view.

6. Formal rebuttals shall be made at a second substantive meeting of the arbitral tribunal. The Party complained against shall have the right to take the floor first to be followed by the complaining Party. The Parties shall submit, prior to the meeting, written rebuttals to the arbitral tribunal.

7. The arbitral tribunal may at any time put questions to the Parties and ask them for explanations either in the course of a meeting with the Parties or in writing. The Parties shall make available to the arbitral tribunal a written version of their oral statements.

8. In the interests of full transparency, the presentations, rebuttals and statements referred to in paragraphs 4 to 7 shall be made in the presence of the Parties. Moreover, each Party's written submissions, including any comments on the descriptive part of the report and responses to questions put by the arbitral tribunal, shall be made available to the other Party.

9. The arbitral tribunal shall release to the Parties its findings and rulings in a report on the dispute referred to it within 60 days of its formation. In exceptional cases, the arbitral tribunal may take an additional 10 days to release its report containing its findings and rulings. Within this time period, the arbitral tribunal shall accord adequate opportunity to the Parties to review the report before its release.

Article 64

Termination of Proceedings

The Parties may agree to terminate the proceedings of an arbitral tribunal in the event that a mutually satisfactory solution to the dispute has been found.

Page 36

Article 65

Implementation

1. The Party concerned shall comply with the arbitral tribunal's rulings or findings within a reasonable time period. The reasonable period of time shall be mutually determined by the Parties and shall not exceed 12 months from the date of the arbitral tribunal's report, unless the Party concerned advises the other Party that primary legislation shall be required, in which case the reasonable period of time shall not exceed 15 months from such date.

2. If the Party concerned fails to bring the measure found to be inconsistent with the Agreement into compliance therewith or otherwise comply with the arbitral tribunal's report within the reasonable period of time, that Party shall, if so requested, and not later than the expiry of the reasonable period of time, enter into negotiations with the Party having invoked the dispute settlement procedures with a view to reaching a mutually satisfactory resolution.

3. If no mutually satisfactory resolution has been reached within 20 days, the Party which has invoked the dispute settlement procedures may suspend the application of benefits of equivalent effect until such time as the Parties have reached agreement on a resolution of the dispute.

4. In considering what benefits to suspend pursuant to paragraph 3:

(i) the Party which has invoked the dispute settlement procedures should first seek to suspend benefits in the same sector or sectors as that affected by the measure or other matter that the arbitral tribunal has found to be inconsistent with this Agreement or to have caused nullification or impairment; and

(ii) the Party which has invoked the dispute settlement procedures may suspend benefits in other sectors if it considers that it is not practicable or effective to suspend benefits in the same sector.

Article 66

Expenses

Unless the arbitral tribunal decides otherwise because of the particular circumstances of the case, the expenses of the tribunal, including the remuneration of its members, shall be borne by the Parties in equal shares.

PART 11

General Provisions

Article 67
